JOSIAH TURNER, Jr., EDITOR.

TOO FAST—A RADICAL WARNING.—We would respectfully suggest to the leaders of the Republican party that they are crowding the "colored person" a little too fast for their own good and for his good. Negro suffrage is a bitter pill for at least one-half of the men who have hitherto voted the Republican ticket. Hence time should have been given them before another and a worse dose was exhibited. This crowding of the negroes into office while there are white men quite as deserving and as well qualified won't win in the long run. It will break the Republican party down. It will reduce the negro to a worse condition than he occupied in a state of slavery, if that were possible. It will sooner or later lead to his extermination. Politicians and fanatical idiots who cannot read the signs of the times may elevate the negro to the Unite States Senate and to the platform of conventions; but they can't find indorsement at the polls for such disgusting conduct, and they will find it out when too late. It is probable that both parties will strive for the negro vote. We predict that this foolish policy of elevating negroes to office and of catering to them for their votes, will result in the formation of what will be termed "The White Man's Party," which will be strong enough to carry the next Presidential election, if wisdom in the selection of candidates is observed, and there is not too much rebel Democracy mixed up with it. Such a movement is imminent, and if made will break up the Republican party, which would be a deplorable event for the country. Let us secure the negro in his right to the ballot, but for the salvation of our party—for the welfare of our country—for the good of the negro—let us dissuade him from seeking or accepting office.—*Seymour (Ind) Times, Radical.*

Some of the newspapers are telling of a young New York journalist, now dead, who during the Johnson convention in Philadelphia, having left his note-book at home, took down a speech on his shirt collar and cuffs by the light of a flickering gas lamp, and while jostled by the surging crowd. It is a little strange that this should strike anybody as a feat worth mentioning. It was Secretary Belknap we believe, who, at the battle of Atlanta, when shot and shell were flying everywhere, at the rate of nine hundred to the square inch, coolly and quietly stepped upon the rebel fortifications, and seizing by the coat collar a rebel Major General, weighing about three hundred and eighty pounds, lifted him over the breastworks, ten feet and flung him into a pile of hay standing some fifty yards within the Federal lines. That night the rebel General, having stabbed himself to the heart with a bar of soap, jumped into a spittoon and his remains where never recovered. General Belknap however survived the other perils of the struggle, and subsequently became Secretary of War. Oh, yes; these incredible things are of common occurrence now-a-day.—*Lou. Cou. Jour.*

THE LARGEST CITY.—It is commonly believed that London is the largest city in the world, but the belief is erroneous. Jeddo, the capital of Japan, is without exception the largest and most populous city in the world. It contains the vast number of 1,000,000 dwellings, and 5,000,000 human souls. Many of the streets are nineteen Japaneseries in length, twenty two English miles. The commerce of Jeddo far exceeds that of any other city in the world, and the sea along the coast is constantly white with sails from the Southern portion of the empire, where they are laden with rice, tea, sea coal, tobacco, silk, cotton and tropical fruits, all of which can find ready market in the North, and then return freighted with corn, salt, isinglass and various other productions which have a market in the South.

FAYETTEVILLE AND WESTERN RAILROAD.—The meeting of Stockholders of the Western Railroad, held at Fayetteville last week, adjourned on Friday. The old officers were re-elected. *The Western terminus was changed from Salisbury to Greensboro',* and mortgage bonds were ordered to be issued to raise means to complete the road.

We understand that private stockholders told Jones & Co. very plainly what was thought of the honesty and capacity of the President and Board of Directors, but they were powerless to effect any reformation, as the entire power is in the hands of the representatives of the State.—The credit of this road can hardly be established under its present management, and the orders of Stockholders or Directors will avail but little.—*Wil. Journal.*

THE CASE OF GEN. HOWARD.—The investigation of the fifteen charges of corruption preferred by Fernando Wood against Gen. Howard, as commissioner of the Freedmen's bureau, will be commenced on Wednesday by the House committee on education, and judging from the vast amount of testimony ready to submit, the inquiry will be most protracted. General Howard and Mr. Wood have both been before the committee. The latter declares that if there is a full, impartial inquiry he will prove every one of the allegations he has made. The committee have voted to keep the evidence and their proceedings secret till a final report is made.—*Wash. Cor. Bal. Sun. April 12th.*

Major Bowen to-day officially publishes an approval of an ordinance of the Washington city council allowing all colored persons to visit theatres, be entertained at all hotels and restaurants the same as white persons, and all persons refusing them such entertainment are liable to arrest and a fine of $50 for each violation, to be recovered in action of debt in the name of the Mayor and councils of Washington, one half to go to the informer.—*Wash. Cor. Balt. Sun, April 12th.*

A Baltimore correspondent writes:—Thunder sours milk and kills oysters. You may load a vessel to its utmost capacity, start for market, and one good round clap of thunder will kill every oyster in the vessel, immediately. Pounding with an axe upon the deck of a vessel when oysters are thereon, or pounding upon the sides of a vessel with a heavy weight, will kill every oyster that feels the jar. But thunder fetches them the first pop.

PROPERTY CHANGED HANDS.—We learn that the beautiful residence of Mrs. Dr. Joyner, at Enfield, has been purchased by Spier Whitaker, Jr. We are pleased to learn that a residence is to be built in this place at an early day for Mrs. Joyner.—*Weldon News.*

MODERATION AND MODERATE MEN.

The Governor, with his organ and a few other "moderate men," would fain hand us over to the indignation of the people as a rash, impetuous, fire-eating man, who could not drive a nail without splitting the plank. This is painting us in a light new to our friends who know us well.

We are neither quick of temper nor hasty in the formation of our opinion of men or measures. The graver the question the slower we are to make up our judgment.—We always choose an eligible position before we make a stand.

The Duke of Wellington examined and fortified the lines of Lorres Vedras a year before he fought behind them. A fall year before the great fight, he is said to have marked out Waterloo as the scene of some great exploit.

We have been charged with making a stand against the "wishes and will of the people." This may be so, for we think the people entitled to nothing which would make them unhappy. When we saw the people running in a hurry, following Gov. Holden, Clingman, Judge Thomas, Judge Watts, Judge Cantwell, Col. Marc. Erwin, Col. Tas. Hargrove and other fire-eaters, into secession, we took a stand against them and by speech and vote denounced every step which led to secession.

But we were conquered by Holden, Clingman, Redman and the rest, and we submitted in good faith to the situation and joined in with them to whip Dewesse, Laflin, Judge Alden, Littlefield, Kehoe, Estes and other scoundrels, who have been slandering, insulting, oppressing and stealing from a fallen foe for years after they had surrendered.

Dewesse, Laflin and company whipped us, and again we submitted in good faith to the situation.

In 1864, as a member of the Confederate Congress, knowing there were 76,000 deserters from the army, and seeing desertion still going on at the rate of from 50 to 100 a night, we despaired of the success of the Confederacy, and cried "Quit Rafe!" like Joe did in Tucker's back yard. We introduced in Congress resolutions for peace, which brought about the Hampton Roads mission. From that day to this we have desired peace.

Two secret societies, one of them moved and managed by Gov. Holden, and Gen. Canby with troops quartered among the people, now frighten the "white-winged messenger" of Peace from our borders.—She will not abide with us until the accursed Leagues and all other secret political organizations are put down by the people.

France had no peace until the Jacobin clubs were dissolved; the South will have none until the Jacobin Leagues are dissolved, and the Ku Klux cease to ride after Leagues. This must be done thoroughly, fully, frankly; we never had faith in temporizing policy about anything.

Moderation is a great virtue; we admire it in everything—eating, drinking, talking, writing—but there are times, conditions and circumstances under which moderation ceases to be a virtue, and to put it on would be to wink at and encourage vice and corruption. Some things, to be done at all, must be thoroughly done. We can not comprehend the process by which a man may be hung *moderately* for rape or murder; nor put much faith in a creed which damns a man *moderately* for a life of rebellion against Heaven.

Who puts on moderation when the burglar has entered his dwelling?

Shame! Shame! upon men who talk about "moderation" while their country is plundered, oppressed and ruined! Drive out the plunderers; force the thieves to relax their grasp, dam up the streams of corruption; then be moderate, and merciful, too, if you will.

Confusion to the old whig who talks about whiggery, and to the old democrat who talks about democracy, so long as Laflin, Littlefield, Kehoe, Tourgee, Ashley, Brewer, Estes, French, Heaton, Holden, Chicken Stevens and Gressy Sam, hold away in North Carolina.

We have always been moderate in our demands on public men; moderate and conservative in our principles and measures. It is our moderation which gives us character with the people; (our assailants force us to appear egotistical;) we have never led the people into trouble, error or crime, by our hot headed counsels or fiery temper.

If we are immoderate or violent in denouncing the rogues and swindlers who have bankrupted the State, ruined her credit, stained her good name, retarded and crippled her improvements and slandered her people, we cannot help it, and don't think we shall try; and we believe the people will, if they condemn us at all, do it "moderately," for using violent denunciations of such characters.

In the coming election we hope to see moderate men elected; but we do not mean that kind of moderation which would stifle the moral instincts of the people and teach them to look in silence upon the intrigues and corruption of Radical depravity, as exhibited under the present State administration.

THE SWAMP LANDS.

The Governor has an editorial in the *Standard* of Wednesday morning, of a column and a half in length, defending or apologizing for his recent hasty disposal of the Swamp lands in Tyrrell, Hyde and Washington counties. We design to notice some of the more prominent and glaring inconsistencies of this defense or apology, but shall not extend our notice to the length of the Governor's editorial, in regard to this atrocious transaction.

The *Standard* says that, over a year ago, these lands were proposed to be sold to this man Bibler, by the Board of Education, "after public advertisement." It will be remembered, the Legislature checked that little operation at the time. This time the Board of Education were so hasty in their work that they sold without "public advertisement."

"The land contains 300,000 acres, exceeding one half of which (it is said nearly 200,000 acres) is daily covered with tide water, and can only be reclaimed at great expense," says the *Standard*. Then there are 100 000 acres that are not daily covered with water; in other words, there is that much of the land that may be cultivated, which, at $5 per acre, (the price at which we learn the purchasers offer it,) will amount to $500,000—which is just ten times as much money as the Governor sold it for, to say nothing of what may be made of the other 200,000 acres.

The Governor states that the State paid, in 1843, $175 000 for canalling these lands, and yet he is willing to sacrifice all this outlay in improving them for the pitiful sum of $50,000.

The Governor further states in his defense, that fifty families have already settled on these lands, (had already settled there, before the sale was made, the whole thing being a foregone conclusion,) and that fifty others "have been added to the number." Now, suppose these hundred families buy 100 acres of land each, at $5 per acre, and this is a moderate supposition, and it will be seen that they have already realized, for 10,000 acres, the $50,000 they paid the State for the whole 300,000 acres!

The Governor asserts that $50,000 is the highest *bona fide offer* the State ever had for these lands, and yet private individuals, can sell one-thirtieth of them for that amount in less than a month after they get possession of them.

We shall pursue this subject no further to-day, but leave the facts we have alluded to for the consideration of the people of the State. We shall recur to the subject again hereafter.

For the Sentinel.

GRANVILLE, April 11, 1870.

EDITOR SENTINEL:—Pursuant to announcement, the performance of the "spotted circus," commenced at early candle light, and the buzz and confusion being so great during the day, that the chairman, Mr. Lacy, was attacked with such a severe roaring in the head, that it produced vertigo, which incapacitated him for active administration, so "my son," one Lewis Ragland, of the "old hero," "honest John," was called to the chair, and settled into it as loosely as a great sack of corn, not one word did his lips utter, but his Physiognomy reflected out brilliantly the benign influence of this great Republican party. Sheriff Moore came out first, and expressed great hope of *now* coming to some definite conclusion in regard to selecting delegates to represent them in the great Republican Convention to assemble in Raleigh on the 11th of May next, and after advising and counselling harmony, he retired, thinking all the "fools wa'nt dead yet."

Next appeared Mr. Lamond with an out burst of oratory, that would have done credit to a Cicero or a Cæsar, and after entertaining in that strain for about one hour and a half, he retired, worried, worn and withered, but to no effect. Next popped up the black, the tan and the copper colored, like minnows in a mill tail, jumping after saw dust soon after the wheel starts, and it so startled the Chairman, he not being accustomed to presiding over deliberative bodies, that he came near leaving the chair in a streak of 'phrensy, and thus they continued their rowing until 12 o'clock and not one delegate have they yet been able to select, and the programme *now* is that this meeting adjourn to meet over in Raleigh on the 11th of May, and to fight it out there on the "Legislative Line." During the night entertainment Col. Hargrove sat back with "Falstaff proportion," and you could see the pleasing anticipations playing over his countenance as he imagined himself one of the Legislative bodies of this great republican party to assemble in Raleigh next winter, and at a pay of seven dollars a day. And the old "Kildee man" his eyes were so dim he could not see to walk at night, and as the day performance had recommended him for Congress, he thought it best to stand off, not knowing what split that night's exhibition might produce, so you see, if Gov. Holden don't commence his League operations of swearing in soon, some of his "colored brethren" will read your SENTINEL, and think what you say of the Governor, may be true. Will write you again as things progress.

Yours &c.

JUDGE HEATH.

MR. EDITOR:—I see from several of the Tennessee papers, and also from the SENTINEL, that Judge Heath, formerly of this State and now of Memphis, Tennessee, is recommended to the people of that State for election as one of their Chancellors.

The writer of this, an old North Carolina lawyer, knew Judge Heath well and intimately for many years at the Bar, and afterwards on the Bench of this State. He hesitates not to say, that North Carolina never had an abler, more efficient or more acceptable Judge than Mr. Heath. He was learned, impartial and patient, and known as such to the whole Bar of this State, and by them held in the highest estimation, not only as a Judge but as a man.

If the people of Tennessee will consult their best interests, they will elect Judge Heath to the place for which he is nominated.

CELEBRATING THE AMENDMENT.

THE HALL OF THE REPRESENTATIVES GIVEN TO THE DISTRICT NEGROES FOR A JUBILEE, AND AFTERWARDS WITHDRAWN—INTERESTING INTERVIEW—THE BOWEN AND ANTI-BOWEN PARTIES.

[Special Despatch to the World]

WASHINGTON, April 11.—There was a ludicrous scene in the House to-day, and a more ludicrous one in a special committee which grew out of it. A diminutive carpet-bagger, appropriately named Cobb, of North Carolina, whose principal work as a legislator seems to be to occupy his time by looking at the galleries with an opera-glass, rose to day and offered a resolution, which the House passed, giving the use of the Hall to the district negroes for a celebration, on Wednesday evening, of the fifteenth amendment.

Then another member from North Carolina offered a resolution for a committee of five to make arrangements for the House to participate in the Congo celebration, which was also adopted. The Speaker appointed Dockery, of North Carolina; Maynard, of Tennessee; Allison, of Iowa; Eldridge, of Wisconsin; and Cox, of New York, as the committee. The last two names were received with shouts of laughter on the Radicals side. They declined to serve, but the House refused to excuse them.

At four o'clock, while the wool question was raging in the House, the Sergeant-at-Arms called its members to the Claims Committee rooms. When the committee entered there were about thirty-five negroes and twelve whites. The appearance of Messrs. Cox and Eldridge was so unexpected that it was received with applause.

Mr. Dockery took the chair. The committee smoothed out its hair and looked around.

The fact stated in the House by Mr. Cox, that the resolution was a Bowen movement in the interest of the City Hall Corporation clique, and against the independent anti-Bowen territorial devotees of the colored race, was at once apparent.

The committee was organized. Mr. Cox was first to speak. He said: Have the colored gentlemen present any suggestions?

Thereupon, a tall, lank quadroon, by the name of Peters, said: We has. We hab started dis movement for a glorious celebration, it was due to the party.

Mr. Eldridge—You are now saying this meeting is called in the interest of party, sir. As Mr. Cox and myself are cosmopolitans and Democrats, wouldst it be best to ignore party, and make this a great patriotic celebration?

Mr. Peters—Dat, sah, am precisely what we desiah.

Mr. Cox—Since our arrival in this room I am informed there is a delegation of anti Bowen men present; shall they be heard?

Colored Man—No bones in dis crowd.

Mr. Cox—Isn't there a difference among the colored people here in the District? Are you all represented?

Mr. Grant (white man)—I appear here, gentlemen, to speak for the Boys in Blue. I speak for five colored brigadiers and ten colonels in the war.

Mr. Cox—Is it a colored organization?

Mr. Grant—It is; we represent 2 000 colored men, soldiers all. I spent $2 800 to organize it. They are opposed to the corrupt Bowen City Hall clique. They had prepared to celebrate the emancipation day on the 16th, as everybody knows. The Bowen men got ahead of us, and rushed to Congress for the purpose of getting the Hall, to give Congressional consequence to their celebration, for Bowen's benefit and against us, the soldiers of the Republic.

Mr. Eldridge—Mr. Grant, are we to understand that you desire to have the House rescind the resolution to give the Hall to the colored people?

Mr. Grant—That's precisely what the Boys in Blue want.

Mr. Cox—What's your name and rank?

Mr. Grant—My name is Grant, and I am a capling; I fought, as did all the Boys in Blue, and there's no other man here, except me and the boys, who had anything to do with war. No one else fought in the war. They are turning out of office in Washington these boys now, because they don't go Bowen, and they want to celebrate the fifteenth amendment. There's no such corrupt men, sir, in Washington as Bowen and Cook.

At this point, a small, hump back, bald headed, weazen faced white man in spectacles, by the name of Cook, gave a ghastly grin and winced. He is Corporation Attorney, and one of the City Hall Ring.

Mr. Maynard—What have you, Mr. Grant, or Cook, to do with it? The resolution says "colored men."

Cook subsided, then Peters spoke.

"Mr. Cox—Are you a colored man, under the resolution?

Mr. Peter—I are.

At this point, Sella Martin, a bright, cool, well-spoken mulatto, appeared. He spoke admirably. He advocated the movement as partizan. He appealed to the Democrats to know whether there was not often lack of party discipline, and whether such movements as this proposed were not necessary for unity.

Mr. Eldridge—Perhaps Mr. Cox and myself had better retire. We have no love for your party. We hoped this affair was above party.

Mr. Martin—Yes, sir; that's what I thought. I propose myself, after the fifteenth, not to know I am a colored man any more.

Mr. Eldridge—You agree with me. You are in favor after that of universal amnesty?

Yes, said Martin, I am.

Mr. Cox—Do you take in your Democratic friends? Mr. Martin—I am willing, sir.

Hereupon a large, glossy colored man arose solemnly and said: Gemman, this is for to let me know we hab come here to thank you, Senators, for lowing us our rights. It's glorious. We ain't no party no how—none at all. We lubs everybody. I agree wid Massa Eldridge.

Mr. Allison (*sotto voce*)—Cox, squelch him.

Mr. Cox—Order in the committee (Sensation.) Colored person subsides. Hereupon Mr. Barrett, a white man spoke, to back up Mr. Grant's ideas. He began, "I'm not a colored man."

Mr. Allison—It's fortunate you told us that. (Suppressed laughter by the colored people.)

Mr. Dockery—Hell! Order!

Mr. Barrett proceeded to show that this resolution was a trick of the Bowen men, &c., to beat the true Republicans and the Boys in Blue. His remarks were listened to with great attention. At this time there was a commotion. Whisperings were going on between Sergeant at arms Ordway, who was present, Mr. Downing the colored restaurant keeper of the House, and the ablest African of them all.

Mr. Cox. The committee would desire to have the opinion of Mr. Downing.

Mr. Dockery—Do you live in the District of Columbia?

Mr. Downing—I don't live here. I feel an interest in the Republican party.

Mr. Eldridge—Now, Mr. Downing, you know Mr. Cox and myself are here, not as partizans, oh no; not to help the Republican party, but in the great cause of human rights.

Mr. Downing—True, sir. I confine myself to that point.

At this moment, one of the colored messengers rushed in breathlessly, and said confidentially to Mr. Eldridge, "De House have rescinded de resolution," and then afterwards to Mr. Cox, repeating it, "No use any more."

Mr. Cox—Then this committee must be *functus officio*.

Glossy colored man in the rear—Punctus de who, brudder Kox?

Mr. Cox—Sit down, honey.

Mr. Dockery—Hadn't the committee better adjourn?

Mr. Eldridge (in a dignified tone)—Let us have authentic and official information. (Sensation.)

Colored Citizen—Information is de thing. Dats what we want.

Mr. Dockery (consulting with Maynard)—We will wait to hear from the House.

Hereupon Hon. Mr. Kelsey, of New York, appeared in great haste. He said apologetically: The House has, on my motion, rescinded the resolution. I moved it because I knew we would have to let white folks and women conventions on the hall, just the same if we allowed this. I meant no disrespect to the colored people. (Profound suspense, broken by a suggestion by Mr. Eldridge that "Mr. Dockery should treat," and by Mr. Cox, "At Downing's expense, as he was the restaurateur."

THE COTTON PROSPECT.

We make the following extracts from a recent circular, issued by Messrs. W. D. Reynolds & Bro. of Norfolk, Va., who are experienced and observant dealers in the staple productions of the South, that our readers may know what they think in regard to the probably rise in the price of Cotton during the present season:

Whether or not prices will improve, depends much upon the future receipts at New Orleans and Galveston; for it is now apparent that the stock in sections of country tributary to the Atlantic ports is no larger than last year.

But the question arises, will this acknowledged increase in receipts over last year afford more cotton than is necessary to meet the present requirements of the world?

The total receipts to date are		2,305 000
Add following as estimated for balance of season:		
At New Orleans (same time in 1869 being 90,000)	120 000	
At Mobile,	36,000	40, 00
At Galveston,	31,000	45 0 0
At Florida,	1 500	1,5 0
At Savannah,	16 000	60,000
At Charleston,	34,000	85,000
At N. Orleans and other ports,	80,000	80,000
		381 500
Overland shipment		140 000
Total bales,		2,836 500

But as the very high prices of last summer nearly exhausted the whole country—reducing the total stock on 1st September, 1869, to 12,000 bales—and it is not likely that the stock this year will be under 50,000 bales, we must deduct from total receipts 38 0,0, leaving as available receipts 2,788,500.

The statistics, as given recently by a leading firm in liverpool, show that the consumption of Europe, during the past three years, has been 791,000 bales in excess of production. It will therefore require an increased production this year in India and America to that extent, to place us in the same position as we were in September, 1866. The consumption during that period was—

	Europe	America	Total.
1866-67	4,147 000	588-000	4,735 000
1867-68	4 606 000	909 000	5,504 000
1868-69	4 503 000	888,000	5 391,000

Accounts from India, though conflicting, afford no hope of any increased export over last year. Indeed, the shipments thus far, say to 19th March, are only 139,000 bales, against 272 000 bales last year. Subsequent shipments may make up to some extent this great deficiency; but with the present lights before us, it is fair to estimate the imports this year from India at 150,000 bales behind last year. The accounts from Brazil and Egypt are far from being favorable, and but few estimate any increase over last year, the probabilities being in favor of a diminution.

Taking these four principal crops into account, as above, we have:

America,	2,788,000 bales
India,	1,400,000 "
Brazil,	600,000 "
Egypt,	225,000 "
Other kinds,	375 000 "
Total, say	5,388,000 bales.

Being 3,000 bales *less* than the *consumptions* of last season, and 116,000 bales less than the consumption of 1867 68. Therefore, with a crop of 2,826,000 bales in this country, there is a poor prospect of any accumulation of stock over last year.

And when it is remembered that the present stock at the mills in Manchester is 40,000 bales, against 70,000 bales in 1869, and 200,000 bales in 1868, and that consumption this year throughout Europe has been and is now fully 7,000 bales per week in excess of last year, it is evident that before another crop can be marketed, the same scarcity as during last summer will exist, and spinners will be eager to supply themselves at prices much above those now current. In our circular just one year ago, we remarked that "the total deficiency for this country and Europe is large enough, in our opinion, to cause serious apprehensions as to a future supply, and although cotton has been depressed in Liverpool below 12d., yet the time is near at hand when that price will be considered a cheap one." The subsequent advance in August to 13¼ and 14 l. shows how far our prediction was correct.

Again, the increase in receipts at the Southern ports as compared with last year is 550 000 bales, and yet the stock on hand to day is only 86,000 bales in excess of last year, including the interior times; and the visible supply of the whole world is only 200 000 bales larger than last year.

The past season has been unprecedently due for picking—the winter having been mild and no storm having occurred to destroy the cotton in the fields—and to this fact is due the large increase in receipts above the calculations of those who were fully informed as to the extent of land planted the past year. Unless a similar season occurs next winter, (which is by no means probable,) the next crop cannot be larger than the present, even if 20 per cent. more area be planted.

We have thus referred to the future of cotton with the hope that the facts mentioned may induce some of our friends to commence buying at present prices; and, as we give special attention to the purchase and shipment of cotton, we will be pleased to have their orders.

IREDELL SUPERIOR COURT.—This Court was in session last week, Judge Mitchell presiding. The *American* says: "The criminal side of the docket for petty offences was quite large, and the cases were disposed of according to their magnitude. No capital case occupied the Court. The civil docket was not so extensive as usual, which is a good sign. We believe that our people are using very good exertions to adjust their debts one with another."

APPOINTMENT.—Peter R. Davis, Esq., has been appointed to fill the vacancy occasioned by the resignation of John W. Rodgers, as County Commissioner. A wise selection, and one that will reflect much credit both upon that body and the people he represents.—*Warrenton Gazette.*

Medal Awarded by the Paris Exposition, 1867.

THE AMERICAN COMBINATION

Button Hole & Sewing Machine

Has been honored with the *highest award* in premiums and diplomas wherever entered for competition at *fairs* and *exhibitions* held during the past season.

THE SIMPLICITY, EASE AND CERTAINTY with which this machine operates as well as the uniform excellence of its work, throughout the entire range of Sewing, in

Stitching, Hemming, Felling, Tucking, Cording, Braiding Quilting, Gathering & Sewing on, Overseaming, Embroidering on the Edge, and its Beautiful Button-Hole and Eyelet Hole Work.

Places it unquestionably far in advance of any other similar invention.

It is also the CHEAPEST intrinsically, as well as the BEST, since it is really TWO MACHINES combined in one, (by a simple and beautiful mechanical arrangement never before accomplished by human ingenuity,) making either the Lock Stitch or Button-Hole Stitch, as occasion may require. It is at the same time, simple in construction, comparatively noiseless, easily understood, and in a word it combines with these ADVANTAGES, EXCLUSIVELY ITS OWN, THE MOST DESIRABLE QUALITIES OF ALL OTHERS.

The public are invited to examine this remarkable machine at Miss Tourrain's Boarding House, (Mrs. Thompson's old stand,) Fayetteville Street, and at Watson's Photographic Gallery.

CARD.

SOUTHERN LIFE INSURANCE CO.

TO THE PEOPLE OF NORTH CAROLINA.

AT the request of General Jno. B. Gordon, President Atlanta Department, I have come to your State to bring prominently before you the claims and merits of the Southern Life Insurance Company. It is under the control of as honorable and as responsible men as there are in the land. It is managed in the most prudent and economical manner and will deal justly and fairly with all.

We have no war to make upon other Insurance Companies, but we do wish to impress upon the people the importance of *keeping their money at home*. By careful calculation it is estimated that a sum of not less than *twelve millions* (annually) is sent from the South, to the North for Life Insurance and unless checked will surely prove suicidal to our interests. We ask you to consider how greatly the material interest of this section would be benefitted by the retention of these enormous sums in our midst.

We send no money away to enrich foreign capitalists but every dollar of premium (less expenses) IS INVESTED IN THE STATE FROM WHICH IT IS DERIVED.

This department of the Company has operated both in Georgia and South Carolina, and has done an unprecedentedly large business. Some of the most prominent gentlemen in these States are identified with its interest. Its Board of Directors embrace the names of the ablest financiers, and most successful business men in the South. They are the Trustees of the sacred fund of the widow and orphan. Will you not trust your friends and neighbors; or is it more secure in the hands of a rangers? We appeal to you to assist us in pushing forward this deservedly popular and reliable Southern corporation. Its solvency is unsurpassed by any Company doing business in the United States, its ratio of assets to liabilities *the only true test of a Company's strength*, fully sustaining this statement.—We would respectfully call attention to the Board of Directors and Stockholders, published in another column, and to our Board of References in this State and others. J. H. MILLER.

THE SENTINEL.

CITY AND STATE ITEMS.

FRIDAY, APRIL 15, 1870.

IRBY. N. STANLEY, as Business Clerk, is authorized to make contracts and give receipts, &c., &c.

NEW ADS.—Connecticut Mutual Life Insurance Company—noticed elsewhere.

A. D. Taylor, a variety of new family groceries.

Tin and Sheet Iron Manufactory, Geo. E. Lougee, Ag't., at the same old stand, where the grandfathers of some of the present generation used to buy their tin ware—stock complete.

SPEAKING AT MORRISVILLE.—The editor of the SENTINEL will address the people of Wake, at Morrisville, on Saturday next, 16th inst.

We are requested to announce that the Conservative Central Executive Committee, consisting of Messrs. Thomas Bragg, M. A. Bledsoe, A. S. Merrimon, J. Q. DeCarteret, R. H. Battle, Jr., R. B. Haywood and J. H. Moore, will meet at the SENTINEL office, on Saturday afternoon at 4 o'clock.

TUCKER HALL TO-NIGHT.—The Hibernicon opens at Tucker Hall to night. It has been well patronized and most favorably spoken of in the cities in which it has exhibited. We judge from what we have seen concerning it in the papers, that it is chaste, amusing and instructive, and that it is visited by the most refined.

THE alarm of fire last night was a false one.

Handley Tapley is the name of the negro who committed the outrage on the little white girl, near Graham, last week.

SHOO FLY.—We have received a sample of smoking tobacco of this brand, manufactured by Wright & Barnett of Roxboro' N. C., and thus far we are very well pleased with it; it is very mild and pleasant.

A Row.—About 11 o'clock on Wednesday night a serious riot occurred on Newbern street between some soldiers from the garrison here and the police. We learn from a policeman the following facts in regard to the affair:

Policeman Jelly, hearing a considerable noise and disturbance near "Hungry Neck," went up and commanded silence. A number of soldiers, who were creating the row, turned on him, swearing they "would not be arrested by a negro police." (Mr. Jelly is a white man, and said to be a very efficient policeman.) The soldiers commenced throwing stones, and also fired three times at him. One of the missiles struck Jelly, whereupon he fired four times on the soldiers.

George Perry, colored policeman, was also struck with a stone. Policeman "Chick" Haywood, who had come to the rescue, fired ten times on the soldiers. Owing to the bad shooting, no one was killed, and no arrests were made.

Will the Governor tolerate such disorder? Or will he telegraph to Grant for a suspension of the writ of *habeas corpus*? We shall see.

P S. We since learn that one of the soldiers was shot through the thigh—a very severe wound. It must be that he was shot in the row above alluded to, as there was no other firing, the policemen say, than that mentioned above.

DR. LIEBOMAN.—This gentleman is stopping at the Yarboro House practicing his profession, and we can say from a practical test, that he is a successful and skillful operator. Of late, a class of men calling themselves chiropodists and surgeons, are going from place to place making money off the people simply because a humbug generally takes better than a man thoroughly understanding his business.—And while such is the case parties are liable to not only be swindled out of their money, but also to get their feet in a much worse condition than they were before they had them operated on.

Dr. L. is not at all of the latter named class. He is a gentleman in appearance and manners, and comes from an eight year's practice in St. Louis, well recommended, and from what we have seen and know of him hesitate not to say that he is an able chiropodist and surgeon, and any one suffering from bunions, corns, or ingrowing nails, will find it to their interest to give him a call at the Yarboro' House, where he can be found for a few days.

A NOBLE EXAMPLE.—We have received from Miss Julia C. Bryce, of Charlotte, N. C. a note enclosing $10 with the request to "hand it to the Ladies' Memorial Association to aid in the completion of the monument to deceased Southern soldiers." We cheerfully comply with the direction and hand the contribution to the officers of the Association.

[The other request contained in the note of our fair correspondent will be attended to, as early as practicable.]

NEW PUBLICATION.—We have just received from Messrs. Coe, Wetherhill & Co., Philadelphia, who have, during the past two years, obtained the head rank amongst our advertising houses, a new publication entitled "The Advertisers' Index." It is neatly gotten up in duodecimo form, and contains not only a complete record of the Newspaper Press of the Southern States, but information interesting and important to all advertisers and business men. This house, on account of their large contracts, are prepared to offer the greatest inducements to business men to advertise, especially in the best journals of the South.—Messrs. Coe, Wetherhill & Co., furnish the "Index" on application, gratuitously, and we advise the business public to embrace the opportunity.

"An Acknowledged Institution."—"*Brown's Bronchial Troches*," are among the acknowledged institutions of the land. What would our ministers, our lecturers, our lawyers, do without these invaluable Troches? To what an amount of "ahems" and coughs and throat clearings would we be all subjected, were it not for these all-powerful and soothing lozenges? We have tried them, and they did us good."—NEW YORK WATCHMAN.

From the Spectator, (for April.)

THE SMALLEST RATIO OF EXPENSE.—"The statement presented by the Connecticut Mutual Life insurance company of its business done in 1869, and its condition at the close of the year, challenges admiration, and demands comment. That a company having total assets amounting to $27,566,479, and receiving premiums in a single year aggregating $7,522 082, should be able to record itself as the most economically managed life company in America, is something almost startling. But this is just what the Connecticut Mutual is able to do. The ratio of the expenses of management to total receipts, is only 8.89 per cent; being less than the ratio of any other company—large or small—in the country. This is an important fact, which cannot fail to be of immense advantage to the company in the future prosecution of its business. Other companies can rightly claim to be economically administered, but to be the leader of the list in this respect, is certainly an enviable position, and one which any company might be expected to use as one of its strongest claims upon popularity. The sum set apart as applicable to dividends (payable in 1870) is $2,300,000, and the practical application of this bonus is illustrated by the circumstance that a friend, whom we met quite accidentally a few days ago, showed us a notification from this company informing him that his next premium ($108 50) was not only entirely provided for by his dividend, but that nearly half as much more remained to his credit for future use in the same direction. Can the Art of Putting Things go further than this?" See new advertisement.*

TO THE CITIZENS OF RALEIGH.

Having been appointed a Committee to solicit contributions for the purpose of paying for and equipping the Steam Fire Engine, (Rescue No. 1,) and finding it impossible to see all who desire to give, we adopt this method of making known our necessities.

We need money to pay for and to equip the engine. We have a complete organization. Cisterns are to be placed at suitable points by the city authorities!

We appeal to the property holders to aid us according to their fire risk because the rates of Insurance will be reduced if our plan is sustained.

We appeal to those who have nothing exposed to the risk of fire because the perfecting of the Fire Department is a progressive movement which will benefit the city.

We appeal to the ladies because the encouragement and the smiles of the fair are necessary to the establishment and the maintenance of an efficient Fire Department!

Citizens of Raleigh, one and all, give us in proportion to your means and we shall be able to protect your property from the devouring element, fire.

Contributions will be received by any of the undersigned.

To Sceptics.

The almost daily receipts of voluntary testimonials from every part of the country, from Physicians, Clergymen, old and young, male and female, is sufficient to convince the most sceptical that DR. TUTT'S EXPECTORANT is the most valuable LUNG BALSAM of the age; many wonderful cures have been performed by it, as may be seen by hundreds of certificates in the hands of the proprietor. Try it and you will doubt no longer.

Newspaper Statements.

HOW THE PEOPLE TEST THEIR TRUTH.

This is not an age when people believe on trust whatever they see in the public journals. Fifty or fifty years ago when the accuracy of a statement that had appeared in one of the gazettes or 'Sows Letters' of the day, was questioned, it was considered a sufficient answer to all cavil to say, "it must be so, for I read it in the newspaper." It is not so now. Newspaper assertions must be verified before they are taken for granted, and this is especially the case as regards statements setting forth the remedial properties of proprietary medicines. For example: it was not until the tonic and alterative properties of Hostetter's Stomach Bitters had been deliberately and thoroughly tested by thousands, and found to be in perfect accord with the printed claims put forth in its behalf, that it was accepted by the public at large as a Standard Remedy. But when multitudes who had resorted to it as a safeguard against malarious fevers, a cure for indigestion and biliousness, a means of strengthening the frame, cheering the spirits and imparting constitutional vigor, came forward and testified that its beneficial effects had exceeded their most sanguine expectations, *of course* the world believed. To resist such proofs was impossible. Great care has been taken from the beginning not to *overstate* the merits of the Bitters. Exaggeration and bombast have been the death of many preparations that might otherwise have survived. They were "weighed in the balance and found wanting." Hostetter's Bitters, on the contrary, have never been announced in grandiloquent language as a cure for every bodily ill, but simply as a pure harmless vegetable specific possessing remarkable invigorating, regulating, anti-bilious and antiseptic properties. This is exactly what the public know the medicine to be, and its enormous sales is an argument in its favor.

Thursday Evening Dispatches.

WASHINGTON.

WASHINGTON, April 14.—HOUSE.—The disabilities of Judge Sabine of Texas, have been removed. The House is now considering the Cable from San Francisco via Sandwich Islands to China.

The Senate is quarrelling over the proposition for a continued session until a vote on the Georgia bill is reached.

The Election Committee granted Grafton until the 1st of September to work up his case against Conner, the seated member from Texas.

SENATE.—The bill chartering the Pacific Cable from San Francisco with a capital of $10,000 000 passed. It is Cyrus W. Fields's scheme, and it will doubtless pass the House, and its consummation will girdle the globe with telegraphic lines.

The Chair decided the resolution for a continuous session until a vote on the Georgia bill was reached, to be out of order.

MISSOURI.

ST. LOUIS, April 14.—There is a heavy freshet in the Mississippi River. Opposite Quincy, Ill., the River is eight miles wide. West Quincy is entirely submerged. The water is over the Hannibal and St. Joseph road for five miles.—Should the river rise a foot more, the flood between Quincy and Palmyra will be submerged. The river is still rising.

BOSTON, April 14.—The probate of Peabody's will, show that public benefactions exhausted his property with the exception of the $150,000 left to his kinfolks.

SAN FRANCISCO, April 14.—The Attorney General of California decides the 15th amendment as against State laws, until Congress legislates for its enforcement.

A HEROIC REMEDY!

HENRY'S CARBOLIC CONSTITUTION RENOVATOR!

Based on Science, Prepared with skill, and all the available ingenuity and experience, that the art of pharmacy of the present day can contribute. And

COMBINING IN CONCENTRATED FORM THE MOST VALUABLE VEGETABLE JUICES

Known in the history of Medicines for

PURIFYING THE BLOOD,
Imparting
NUTRITION TO THE SYSTEM,
Tone to the Stomach,

And a Healthy action to the Liver, Kidneys, Secretive and Excretive Organs.

A DYING ZOUAVE

by breathing is last on the battle field, his companions surged on and left him alone. They knew the cause of his approaching end it was the deadly bullet. No friendly voice could cheer him to life—no human skill could save him.

Thousands of Precious Lives

are to-day as rapidly sinking, and as surely inclining on to an untimely end, in Further Reg. Agony, Wretchedness, and Ignor nce of the cause which

Science can arrest and assuage,
Nourish into new Life and Vigor,
And cause the Bloom of Health
To dance once more upon their withered Cheeks.

DISEASE, LIKE A THIEF,

Steals upon its victims unawares and before they are aware of its attack, plants itself firmly in the system, and through neglect or inadvertion becomes a fixed, and defies all ordinary or temporary treatment to relinquish its merciless grasp.

DO YOU KNOW THE CAUSE OF

The wasted form—the hollow cheek?
The wild sunken eyes?
The sallow face—the shadow complexion
The feeble voice—the restless, glassy eye?
The emaciated form—the trembling frame?
The treacherous pimple—the fretting sore?
The repulsive eruption—the inflamed eye?
The pimpled face—the rough colorless skin?
and debilitating ailments of the present age?

The answer is simple, and covers the whole ground in all its phases, viz: the

FANGS OF DISEASE
AND
HEREDITARY TAINT
ARE FIRMLY FIXED IN THE
FOUNTAIN OF LIFE—THE BLOOD.

The
INDISCRIMINATE VACCINATION
during the late war, with diseased Lymph has
TAINTED THE BEST BLOOD
in the entire land. It has planted the germ of the most melancholy disease in the veins of men, women and children on all sides, and nothing short of
A HEROIC REMEDY
will Eradicate it root and branch, forever. Such a Remedy is

HENRY'S
CARBOLIC
CONSTITUTION
RENOVATOR.

ON REACHING THE STOMACH, it assimilates at once with its food and liquids therein, and from the moment it passes into the Blood, it attacks disease at its fountain head, in its germ and maturity, and dissipates it through the avenues of the organs with unerring certainty, and sends NEW AND PURE BLOOD BOUNDING THROUGH EVERY ARTERY AND VEIN.

The tubercles of Scrofula that sometimes flourish and steal the inner coating of the abdomen, like kernels of corn, are withered, dissolved and eradicated and the diseased parts nourished into life. The Torpid Liver and Inactive Kidneys are stimulated to a healthy secretion, and their natural functions restored to renewed health and activity.

Its action upon the blood, fluids of the body, and Glandular System, are

TONIC, PURIFYING AND DISINFECTANT,

its touch disease drops, dies, and the victim of its violence, as it were

LEAPS TO NEW LIFE.

It relieves the entire system of Pains and Aches, enlivens the spirits, and imparts a sparkling brightness to the eye,
A rosy glow to the Cheek,
A ruby tinge to the Lip,
A clearness to the Head,
A brightness to the Complexion,
A buoyancy to the Spirits,
And happiness on all sides.

Thousands have been rescued from the the verge of the grave by its timely use.

This remedy is now offered to the public with the most solemn assurance of its intrinsic medicinal virtues, and powerful Healing properties.

FOR ALL AFFECTIONS OF THE
Kidneys, Retention of Urine,
And Diseases of Women and Children,
Nervous Prostration, Weakness, General Lassitude and loss of Appetite, it is unsurpassed.

IT EXTINGUISHES

Affections of the Bones, Habitual Costiveness, Debility, Diseases of the Kidneys, Dyspepsia, Erysipelas, Female Irregularities, Fistula, all Skin Diseases, Liver Complaint, Indigestion, Piles, Pulmonary Diseases, Consumption, Scrofula or King's Evil and Syphilis.

Do not Insure Your Life

UNTIL YOU ASCERTAIN FROM

P. F. PESCUD,

General Agent for North Carolina,

WHY THE

National Life Insurance Company,

OF THE

UNITED STATES OF AMERICA

can, and does issue a larger Policy for less money than any other Company, represented in North Carolina.

The National was organized in August 1868. She has issued nearly

10,000 POLICIES,

HAS A CASH CAPITAL OF

$1,000,000,

which was all paid in before a Policy was issued and which has already increased fifty per cent. All the losses reported to 1st July last amounted to but $46,000, and as a further evidence of the great care observed in the selection of risks, 924 applications amounting to nearly $3,000,000, were rejected last year. Therefore a solid basis and investments that none but Stock Companies can afford, is enjoyed by all who prefer the National to Mutual or mixed Companies.

ALL LIABILITY FOR LOSSES IS AVOIDED.

Every man who has a family, should try to create an Estate for their support, when he is taken from them by death—and a very small annuity spent for a Policy secures a larger amount of Cash Assetts, and is far more certain, than the same amount will secure in any other investment, and a more tender expression of love and responsibility could not in any other way be more beautifully expressed.

NON-EXPLOSIVE COMBINATION BURNING FLUID

THE CHEAPEST, BEST AND SAFEST ILLUMINATING AGENT IN THE WORLD!!

No more Exploded Cans!—No more Exploded Lamps!
No more Smoke!—No more Grease!
No more Fires!!

EVERYBODY PREFERS IT AFTER GIVING IT A TRIAL!

IT costs less!—It lasts longer!—Gives a more Brilliant Light!—May be burned in hand lamps, without chimney.

Guaranteed to make a better and safer Light than Coal Oil and to be NON-EXPLOSIVE!!!

No accidents have ever happened with it.

Protected by Copy right for 28 years from May 8th 1868.

The above Fluid has been in constant use for upwards of three years, and has sustained its unrivalled reputation, as a brilliant, non-explosive illuminating agent, though subjected to the severest tests. Being universally conceded to be superior to Kerosene or Coal Oil. It makes a better light and more of it, than any other illuminating compound. Soft, clear, steady and uninjurious to the eyes. All that is asked is, a fair and impartial trial.

Among the numerous testimonials received read the following:

PHILADELPHIA, March 15th, 1869.

The undersigned, having witnessed the experiments of Messrs. Hale & Co., with their Combination Burning Fluid, take pleasure in commending it to the public. The various tests to which the Fluid was subjected, was in the highest degree satisfactory. We have no hesitation in pronouncing it to be a *safe* and *brilliant* illuminating agent. Its cheapness added to its other good qualities, should insure its introduction into every family in the country, where Kerosene Oil is used.

CITY OF NEW YORK.

"STRONG, LIBERAL, SAFE, AND OF ESTABLISHED REPUTATION. THE GLOBE OFFERS EVERY INDUCEMENT TO PERSONS DESIROUS OF MAKING PROVISION FOR THOSE WHOM THEY MAY LEAVE BEHIND."

PLINY FREEMAN, President.
LORING ANDREWS, Vice President.
J. A. HADENBURGH, 2d Vice President
H. C. FREEMAN, Secretary.

Managed by able men, thoroughly experienced in the business of Life Insurance; its business since its organization has exceeded that of any other Company for the corresponding period of its existence.

H. H. GOODLOE, General Agent for N. C.

DR. E. BURKE HAYWOOD, Examining Physician.

Gen'l. S. B. BUCKNER, Manager Southern Dep't.

The Globe has peculiar claims upon the Southern country, from having first introduced the non-forfeiting feature in all its policies. Its President, Mr. Pliny Freeman, was the inventor of the ten-year, non-forfeiture plan, and introduced it in the Company with which he was then connected.

The Globe takes no notes; but receives its premiums in cash, and pays its policies in cash, without deduction.

To those desiring it, the Company will issue policies, registered and certified by the Superintendent of the Insurance Department of New York, as "secured by pledge of public stock."

OFFICE, ON FAYETTEVILLE STREET,

SUCCESS THE CRITERION!

DE SOTO MUTUAL LIFE INSURANCE COMPANY,

OF ST. LOUIS, MISSOURI.

JAMES P. LUCAS, President.

CAPITAL STOCK, (PAID UP,) $150,000.00!

Stockholders bound for Double the Amount of Stock!

$100,000 DEPOSITED WITH THE INSURANCE DEPARTMENT OF MISSOURI.

THE MOST SUCCESSFUL CASH COMPANY IN THE WEST!

The Stock of this Company is owned by the Capitalists of Louisville, Ky., and St. Louis, Mo. It is emphatically a Western and Southern Institution.

The DE SOTO has no desire to exalt its merits over those of other good Companies, nor to prosper on the decline of others, laboring in the same fields, and for the same grand object. Confident of its equal advantages with others, of whatever age or standing, it is willing to labor honorably for success, and hopes to deserve the public confidence by its energy, industry, and liberal spirit.

From the Missouri Republican.

"Few Companies have started out with such gratifying and flattering prospects of success, and under such favorable auspices. The Company has been extremely fortunate in the selection of its Directory. Its President, JAMES P. LUCAS, needs not a word of commendation from us. He enjoys a general reputation as a gentleman of wealth, unquestioned integrity, practical good sense, sound judgment and splendid business capacity.

The Directors rank among the first class of our merchants, bankers and citizens, as men of capital, financial ability and experience: men of probity and unblemished reputation. In the character of such a Directory, the community have the best guarantee that the business of the Company will be prudently and judiciously managed."

Policies issued on all the popular plans and all Non-Forfeiting.

Policy-holders may travel by the usual modes of conveyance, either by land, river, lake or coast wise, in any portion of the United States and Territories, the settled portions of the two Canadas, Nova Scotia and New Brunswick, and in time of peace may cross and recross the Atlantic Ocean by the usual passenger routes to, and travel and reside within, any portion of Europe.
